

# Mechanical Drafting & Design Services

Contributed by  
Last Updated Tuesday, 13 January 2009

Mechanical Design and Drafting is my Passion.

I have spent over 15 years honing my mechanical drafting skills. I am proficient, and fast in designing, and drawing 2D, and 3D parts, as well as working drawings.

- Wood Products
- Sheet Metal parts
- Machined parts
- Tabular parts
- As-Built Drawings
- Large Assemblies
- GD&T

I have worked on many large projects including:

- Dorm Furniture Collections
- Panel System Design
- Wood and Metal Office Furniture
  
- Equipment & Brackets for LA County Sheriffs Dept. Chevy Tahoes
- Planetary Gear Sets
- Nut Harvesting Tree Shaker
- Grape Harvesters & Bins

I am well versed in many different CAD/CAM packages.

- AutoCAD
- SolidWorks
- AutoDesk Inventor
  
- ProE
- MasterCAM
- SigmaNest
- CamWorks
- AutoDesk Viz
- 3D Studio Max
